-----

This past week Shelby Solar and Wind became an authorized dealer for OGW Energy Resources.  
<http://www.ohiogreenwind.com/Products.html>

The significance of this is that the available wind products now offered have more then doubled, not to mention LED Bulbs and many other products are also available. Additional information on all these products will be added to the website over the coming weeks/months. Meanwhile, the links for each product can be found at the site listed above.

Some more interesting links:

Did you know that back in the day, electric automobiles were actually in competition with gasoline ones? [http://en.wikipedia.org/wiki/Oliver\\_Parker\\_Fritchle](http://en.wikipedia.org/wiki/Oliver_Parker_Fritchle)

Are you following the big turbines in the Great Lakes or would like to (no matter if you are for or against them)? One place is undergoing a study on the prospect.
